**i** Price in the table includes blind with: brackets type A, ladder string, lifting with cord, tilting with cord. Brackets type B, C and D are available on order without surcharge. Below 62 cm of width control and cord (slat lifting) are always on the opposite sides of a head rail.

Ladder tape

Standard ladder string is replaced by a standard ladder tape. Ladder width equals 25 mm. Option offered without surcharge.

Wide ladder tape

Standard ladder string is replaced by wide ladder tape. Ladder width equals 38 mm. Option offered with surcharge.

Aluminium wand and tassel

Decorative aluminium control components. Available in silver or bronze. Option offered with surcharge.

Side guidance

Blind equipped with a perlon coated steel wire. Option offered with surcharge.

Hold down bracket

Hold down bracket allows locking the bottom rail, i.e. when installing on a tilting window. Option offered with surcharge.

LUX option

Standard blind is equipped with wooden components: valance, bottom rail, wand and tassels. Wooden components colours see 50 mm colour selector. Side valance is wider than the head rail. In one sided version it is 2,6 cm wider; in two-sided version it is 5,2 cm wider. Option offered with surcharge.

Premium option

Headrail and bottomrail has a modified shape and is made of aluminum, which refers into quieter operation and greater system rigidity. RAL painting available. Only available with type A bracket. Option offered with surcharge.

Avantgarde crank

Clear and elegant crank handle with sliding sleeve concealing the pivoting mechanism. Available in white or black. Option offered with surcharge.

System dimensions

H1 - approximate height of a closed blind  
 H2 - approximate height of an opened blind  
 H2 = 2,1 cm per 1 m of height for ladder string  
 H2 = 4,0 cm per 1 m of height for ladder tape

Head rail brackets

Tension brackets
