 Price in the table includes blind type VS2 with profiles in white or silver, handle type A or B and installation type A.

 Above 100 cm of width in VS2 system middle snap mechanism is recommended (see "Additional accessories" section).

VS2

In standard VS2 blind, the pleat is stretched on ordinary shoes screwed to the glazing bead. Profiles in white, silver, black-brown or brass colour. Profiles controlled with a handle.

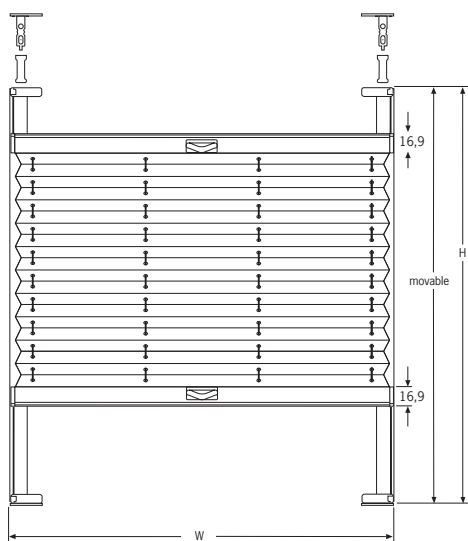

Handle

Installation

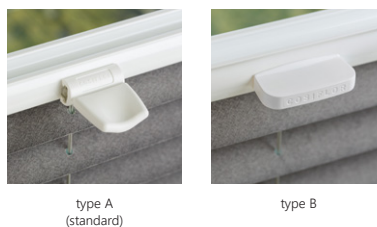

VS2-KL

In case of windows with vents or without glazing beads it is possible to use special profiles glued to the glass. Appropriate shoes are placed in profiles. Profiles controlled with a handle. Profiles in white or silver colour. Option offered with surcharge.
