Små barn kan strypas av öglor i dragsnören, kedjor, tejper och innersnören som driver produkten. För att undvika strypning och intrassling, förvara linor och snören utom räckhåll för små barn. Dessa persiennedelar kan lindas runt ett barns hals och utgör då en fara. Flytta bort sängar, barnsängar och möbler från fönstert. Knyt inte ihop snören. Se till att dessa inte vrids så att dem skapar en ögla.

Young children can be strangled by loops in pull cords, chains, tapes and inner cords that operate the product. To avoid strangulation and entanglement, keep cords out of the reach of young children. Cords may become wrapped around a child's neck. Move beds, cots and furniture away from window covering cords. Do not tie cords together. Make sure cords do not twist and create a loop.
